

Plenary Session 4:

Tuesday 29th July 2008
9:30 - 10:30

Tan Suri Napsiah OMAR, Malaysia

Globalization of the food supply – the role of home economists

This plenary paper focuses on the globalization of the food supply. As a significant area of focus for the field, and with connections to the health crisis of under- and over- nutrition, questions about sustainability, equity, health impacts and possible strategies to address the fast food practices are explored.
